GRADE SHEET: Science (5th-12th))

INSTRUCTIONS: Listed below are some *suggested* categories in which to grade your child. Not all will be applicable. Choose the ones appropriate to your study and record one or more grades per week. We would encourage you to *add* or *omit* categories which reflect your family's homeschool.

STUDENT: _____

QUARTER: _____ GRADE: _____

DATE: From _____ to _____

										Total	Divided by number of entries	Individual Averages
Review Questions - text												
Quizzes (oral and written)												
Notebook / Projects												
Activities/Lab Exercises												
Tests*												*

*Tests should be counted **double** when computing the course average.

Course Average _____

Follow these steps to compute your **Final Average**:

1) Multiply the **Course Average** by 3 — X3
2) Add the **Quarterly Test** grade
3) Divide the result by 4
4) Round to the nearest whole number

Final Average _____
